Ethiopia, Addis Ababa, Kolfe-Keran • 0900065797 • Yohannesderibe30@gmail.com

Junior Front-End Developer

Junior Front-End Developer with a strong foundation in modern web technologies, specializing in React and TypeScript. Demonstrates solid problem-solving ability, fast learning capacity, and effective time management. Experienced in building full-stack applications and deploying scalable solutions using modern tools.

WORK EXPERIENCE

ArifPay

Developer Intern

- Contributed to development of ArifMenu platform
- Collaborated with team members to improve UI and functionality

CERTIFICATIONS

Hackathon Participation

Computer Science Club

PROJECTS

Inventory Management System

- Built a full-stack application using React (TypeScript), .NET, and PostgreSQL
- Deployed with Render, Vercel, and Supabase
- Designed and implemented the entire system independently

Insurance management system

- PostgreSQL used as the database
- Allows users to manage insurance policies, claims, and customer data
- Features include policy creation, claim submission, and role-based access for admins and agents

Attendance Management System

- Developed for school students using PHP
- Allows teachers to mark students as present or absent
- Three user roles: admin (manages teachers), teacher (marks attendance), student (views attendance)
- Alerts students if absence exceeds 30%, ensuring the school's strict attendance policy is met

SKILLS

Frontend Development:
React (TypeScript, JavaScript)

Backend Development:
.NET

Programming Languages:
C++, Java, SQL

Tools & Platforms:
GitHub, Render, Supabase, Vercel

Soft Skills: On-Time Delivery, Problem Solving, Teamwork, Time Management

EDUCATION

Bachelor's Degree in Computer Science

St. Mary's University
01/2014 - 01/2018
